

## **Job Position: Technology Content Writer**

**Location:** Remote, Work From Home

**Employment Type:** Full-time

**Reports to:** Chief Executive Officer

### **About Syber Skills**

Syber Skills, having its head quarter in Canada and regional office in India, is dedicated to empowering individuals and organizations through cybersecurity education, digital literacy, and innovative technology solutions. We are building a future where communities are safer, smarter, and more resilient in the digital age.

### **Role Overview**

We are seeking a **Information Technology Content Writer** with a passion for cybersecurity and emerging technologies. This role involves crafting compelling, accurate, and accessible content that educates diverse audiences — from students to professionals — while strengthening Syber Skills' voice as a trusted leader in digital empowerment.

### **Key Responsibilities**

- Research and write blogs, articles, whitepapers, and case studies on cybersecurity and digital skills.
- Develop educational materials such as tutorials, guides, and e-learning modules.
- Collaborate with subject matter experts to ensure technical accuracy.
- Optimize content for SEO and track performance metrics.
- Maintain consistency in tone, style, and brand messaging.

**Syber Skills**  
602, MacLaren Street  
Ottawa Ontario  
Canada

---

## Qualifications

- Bachelor's degree in Cybersecurity, Computer Science, Communications, or related field.
- 2–4 years of experience in technical writing or content creation.
- Good understanding of cybersecurity frameworks, digital literacy, and technology trends.
- Excellent writing, editing, and storytelling skills.
- Familiarity with SEO tools, CMS platforms, and digital marketing strategies.

## Preferred Skills

- Experience in e-learning content development.
- Ability to create visual aids (infographics, diagrams).
- Knowledge of Information Technologies, Cyber-forensic solutions or ICT security.
- Strong collaboration and relationship management skills.

## Why Join Us?

At Syber Skills, you'll be part of a mission-driven team that values innovation, inclusivity, and ethical impact. Your work will directly contribute to building safer digital communities and empowering individuals worldwide.
